

# [Findex Community Fund Turns One!](#)

The Findex Community Fund was launched as a commitment to give back to the communities we are connected to. February 2019 marks 12 months of operation for the FCF and we are so pleased to celebrate the charitable impact we have been able to make in the areas of Health, Education and Entrepreneurship.

With a vision to create equal access to opportunity for people isolated by location or circumstance we are humbled by the impact we have made so far, and will continue to support the communities of Australia and New Zealand.

Check out this short [video](#), showcasing our first year of operation.
